### TO OUR FRIENDS.

All records with our announcement on and bought direct from us are fully warranted to be originals and not duplicates. This warrant we stand by under all conditions. We would, however, caution all users of records that unless the records with our announcements are bought direct from us we do not guarantee them to be originals, as we have no agents and some irresponsible dealers buy our original records and then make duplicates which they sell at the same price as they paid us for the originals. As we have but one price on records in any quantities it is evident that our original records could not be resold at the price we sell at.

The price of all records is fifty cents each, or five dollars per dozen where a full dozen or more are taken at one shipment.

### HOW TO ORDER.

In ordering records enclose the full amount for records ordered by Kansas City or New York exchange. Private checks only accepted with exchange added and to be held until same have been collected.

### VERY IMPORTANT.

Our records are all originals and we ask all to be very specific and state whether they wish the records for horn or tube use. We can then fill orders intelligently, as we have records so loud that they could not be used for tube use with satisfaction, as they can be heard with the horn several blocks away.

Always, if possible, send us a double list of records wished, one to be first choice and the other second choice which we can use if necessary. You will understand that as we only sell originals with our announcement on we cannot always guarantee shipment of a record which might happen to be out of stock, as they can only be made by the parties under whose name we list them. Order always by numbers. We take the liberty of substituting if necessary unless specially directed not to do so.

All records are shipped by express and at the risk of the purchaser. We pack as safely as possible and deliver in perfect condition and our responsibility ceases. Records broken en transit will not be replaced. Such losses must be recovered from the carrier.

We do not send out records on approval. Their fragile and perishable nature precludes this.

## THE NEW STANDARD PHONOGRAPH.

Price, Complete, \$20.00.

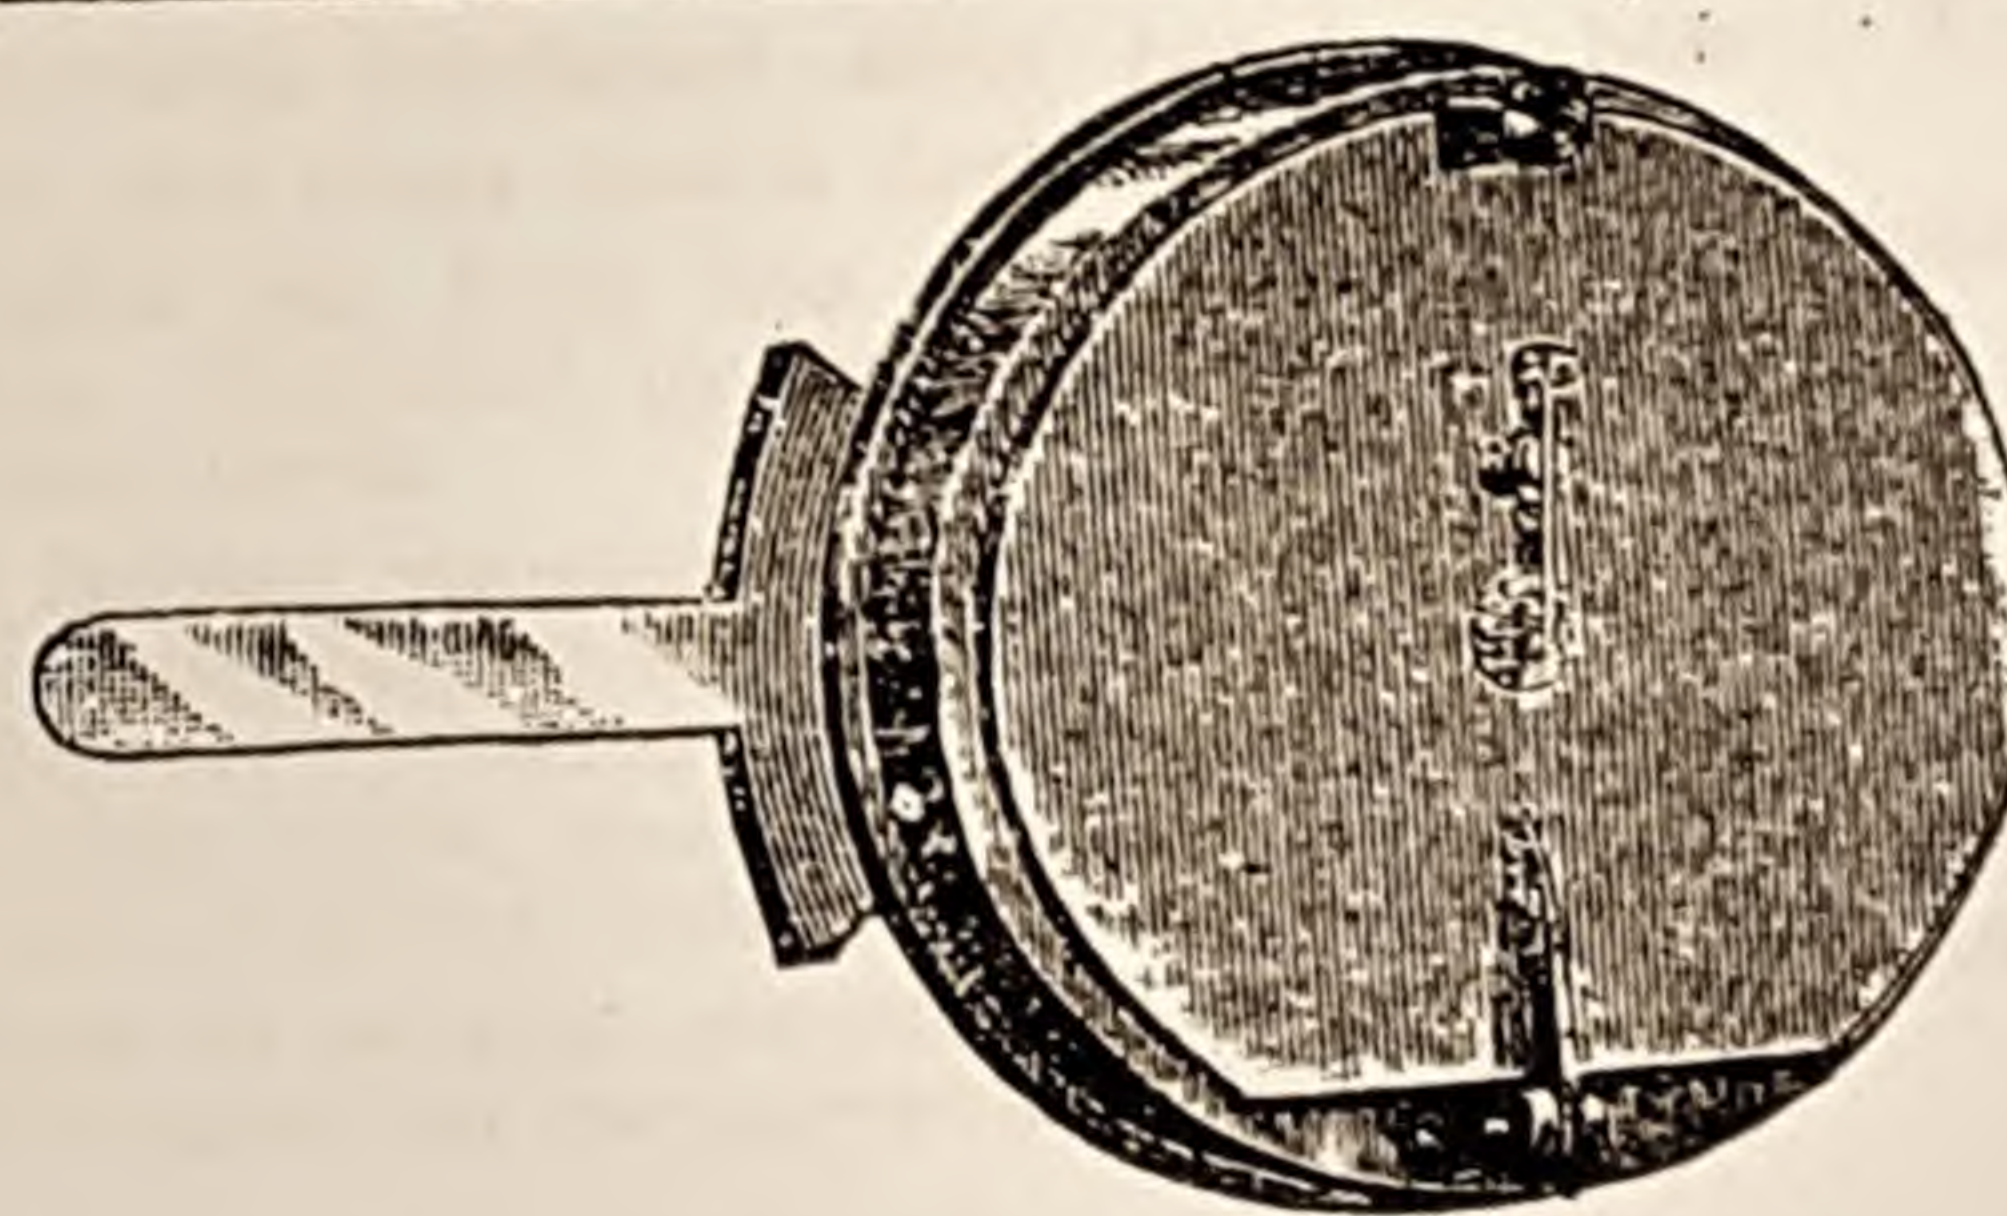

This is the cheapest genuine Edison Phonograph made. This model has just been issued. The weight is 17 pounds complete.

Attachments which go with the Phonograph are one Automatic or Standard Speaker (specify which you wish), one-way hearing tube, one speaking tube, one camel's hair brush, one oil can, one oak case, one winding crank and one shaving knife.

This machine is made of steel and brass. Nickeled gears and mandrel. Black enamel and gold finish. It is actuated by spring motor which runs two to three records with a single winding.

## EDISON AUTOMATIC SPEAKER.

The Edison Automatic Speaker is made for reproducing only, and is of the greatest value to every user. It has no recording sapphire, and none can be set in it. The use of the speaker adjusting screw is entirely done away with. The speaker is so built that it will always "track" the thread of the Phonograph record, overcoming the unequal expansion and contraction of the wax cylinder in different tempera-

tures. Thus, when the "track" is once found, the reproducing ball remains properly adjusted, and the reproduction holds clear and firm throughout. On account of always being in the track, it sounds much louder than the standard speaker, which may get out of track.

We recommend all who use the Phonograph for pleasure or concert purposes to order this attachment, as it saves much annoyance and time required to regulate the Standard Speaker with which all Phonographs are originally equipped with.
